Some of these "Group Facilitator Only" resources refer to specific content in *The Parents Toolshop® book* that only certified Parents Toolshop® "Group Facilitator" have been trained and authorized to teach. Some resources include registered trademark brand names which only certified Parents Toolshop® instructors are authorized to use. The topic packets consist of an outline with handouts and interactive activities they can do with the group, but the outlines reference teachings and resources only our instructors have received. Without these teachings spelled-out, the outlines aren't user-friendly. We aren't trying to be secretive or exclusive, we just haven't rewritten all the products to be "generic" for any parent educator. We provide these resources to help our instructors avoid reinventing a few wheels. Unless we were to rewrite all of them, we just wouldn't feel right charging a fee or delivering a product that wasn't easy for others to use.
